

# STERLING ENVIRONMENTAL ENGINEERING, P.C.

---

## Aimee N. Viens Environmental Consultant

- Education:** Bachelor of Science in Environmental Management  
University of Rhode Island, Kingston, Rhode Island  
May 1999
- Professional Affiliations:** Society of Wetland Scientists
- Additional Education:** Graduate Level Courses-Wetland Ecology, Wetland Field Investigations  
  
Institute For Wetland & Environmental Education and Research Courses  
University of Rhode Island: Cooperative Extension-Introduction to  
ArcView 3.2, Soil Morphology, and additional Soil workshops  
  
Environmental Systems Research Institute, Inc. (ESRI) Courses
- Experience:** July 2007 – Present, Sterling Environmental Engineering, P.C., Latham,  
NY  
2001 - June 2007, Pare Corporation, Lincoln, RI

Ms. Viens has over six (6) years of experience involving a wide range of engineering and environmental projects in the fields of solid waste management, site development, water and wastewater facilities, transportation, structural, planning and environmental permitting. Work experience includes environmental studies and reports, erosion and sediment control monitoring, permit compliance and permit applications for a variety of coastal and inland projects, managed the development and operation of a GPS unit (GeoXT) and Geographic Information Systems (GIS) software to support a variety of civil, environmental, and transportation engineering and planning projects.

Ms. Viens possesses 40-hour HAZWOPER certification and 10-hour Construction Safety training.

Ms. Viens' responsibilities at Sterling Environmental Engineering, P.C. include performing Phase I environmental site assessments, creating storm water pollution prevention plans, conducting storm water erosion and sedimentation inspections, wetland mitigation, wetland delineations, environmental monitoring and permitting.
